

Turnstile 2.3.0: release checklist

Every item must be ticked by the release owner before the tag is pushed.

- ☒ **R-01** All automated tests pass on main.
- ☒ **R-02** Every automated case in the test plan has a passing automated test.
- ☒ **R-03** CHANGELOG lists every behaviour change since 2.2.0.
- ☒ **R-04** package.json version matches the release tag.
- ☒ **R-05** No new runtime dependencies.
- ☒ **R-06** No TODO or FIXME comments left in src/.
- ☒ **R-07** README documents every environment variable the service reads.
- ☒ **R-08** Licence file present and matches package.json.
- ☒ **R-09** SECURITY.md names a contact for vulnerability reports.
- ☒ **R-10** The authentication spec has been reviewed against the implementation.

Signed off by the release owner, 21 September 2026.

Result: all items met. Cleared to tag v2.3.0.
